

Testicular Cancer Webinar

Wednesday 1 February 2023

Venue and Time:

12.00-13.30, via ON24 (online platform)

Suitable for:

Colleagues across all care settings and professionalisms who care for people diagnosed with testicular cancer

Info about event:

This webinar will take a broad look at the testicular cancer pathway, from presentation through to treatment options. We will take into account the patient perspective alongside the importance of the CNS in caring for, and supporting, patients and their families.
